I also have same thing going on my 2002 nissan altima 2.5 automatic, I have coolant in the #2 cyc, the car was giving to me, but oil looks good, its little black but no milky whatsoever, but i guess still have a blown head gasket?, what are my options and what should I do to have it back on the road without the issue again.Sounds like you want to crank it to repair it. Is the plan to use Pharma grade NA40 sodium silicate AKA Liquid Glass? If its a stick shift manual pull it with another car and dump the clutch until it cranks with key turned to on, but have thermostat out and everything else ready to do it correctly.Mercury Mariner Outboard 30 40 Hp 4-stroke 1999 Factory Service Repair Manual Download Mercury Mariner Outboard 65jet 80jet 75 90 100 115 125 HP 2-stroke Factory Service2005 nissan altima codes p0725, po335. how to fix - Nissan 2004 Altima question
