

# Download Dehavilland Beaver Flight Manual

History: The first of deHavilland Canada's "bushplanes," the DHC-2 Beaver was developed in 1947 as a rugged, highly-versatile aerial truck which could take off and land almost anywhere, carry a large load, and be very reliable. It succeeded in all these areas in the civilian sector, so it was almost inevitable that, in 1951, the Beaver would be selected by the US Air Force and Army as a new ...The de Havilland Canada DHC-2 Beaver is a single-engined high-wing propeller-driven short takeoff and landing (STOL) aircraft developed and manufactured by de Havilland Canada. It has been primarily operated as a bush plane and has been used for a wide variety of utility roles, such as cargo and passenger hauling, aerial application (crop dusting and aerial topdressing), and civil aviation duties. Cessna 206 Fan Club. Sven from Tanzania says the 206 is his dream plane and the best bush plane based on his experience. He said, "I can only speak from experience with Cessna aircraft, but the 206s we had with IO550, four-point harnesses, STOL kit, large tyres, fortified Frames and inside struts were certainly good Tools for the Job, which was to ship passengers and cargo and do the odd ...A long time ago, you probably tossed a free-flight glider around your backyard. Rediscover the joy of flight in it's most basic form. by - Guillow - Dumas Products Inc. - FMS
