

Download Divergent Answer Key Study Guide

When it comes to problem solving and idea generation, two ways are commonly cited, namely divergent and convergent thinking strategies. In an abundance of enthusiasm generated post-Sputnik 1, the convergent style of thinking was rapidly equated with typical intelligence. Answer to: Why is the Mississippi River important? By signing up, you'll get thousands of step-by-step solutions to your homework questions. You... Summary of the Chapter. Biogeography can be simply defined as the academic study of the factors that control the spatial distribution of organisms. FORCES . A force is any push or pull that causes an object to move, stop, or change speed or direction.; The greater the force, the greater the change in motion will be. The more massive an object, the less effect a given force will have on the object.; Unless acted on by a force, objects in motion tend to stay in motion and objects at rest remain at rest.
