The United States Naval Academy (also known as USNA, Annapolis, or simply Navy) is a four-year coeducational federal service academy adjacent to Annapolis, Maryland. Established on 10 October 1845, under Secretary of the Navy George Bancroft, it is the second oldest of the United States' five service academies, and educates officers for commissioning primarily into the United States Navy and ...

The Eucalyptus forests honey production potential is already very well-known and much appreciated by beekeepers and forest owners. It allows diversification in the rural production and an extra income to farmers. Eucalyptus flowers are very much attractive to honey bees (*Apis mellifera*) due to the amount and quality of the pollen and nectar they have.

Positions held: Retired as Chief Scientist. Academic and Research Achievements: Brought India on to the International Map of Metabolic Engineering of Medicinal Plants particularly the antineoplastic herb *Catharanthus roseus*; Playing active role in drafting the National Policy Document of Indian Medicinal Plants of Ministry of AYUSH

What do you think when you hear the word “scientist?” If you think of Doc Brown from “Back to the Future” or a man wearing a lab coat or glasses, having bushy hair, holding instruments of knowledge like clipboards and calculators, relevant captions like “eureka!,” etc. you wouldn’t be alone.
