The Indian Health Service (IHS), an agency within the Department of Health and Human Services, is responsible for providing federal health services to American Indians and Alaska Natives. The provision of health services to members of federally-recognized Tribes grew out of the special government-to-government relationship between the federal government and Indian Tribes. Scope of practice in nutrition and dietetics is composed of statutory and individual components, includes the code(s) of ethics (eg, Academy/CDR, other national organizations, and/or employer code of ethics), and encompasses the range of roles, activities, practice guidelines, and regulations within which RDNs perform. An optical fiber is a flexible, transparent fiber made by drawing glass or plastic to a diameter slightly thicker than that of a human hair. Optical fibers are used most often as a means to transmit light between the two ends of the fiber and find wide usage in fiber-optic communications, where they permit transmission over longer distances and at higher bandwidths (data rates) than electrical ...
