

Download Haynes Weber Tuning Manual

DCOE Thumb rules (use as a starting point): . Venturi Size: If your carb was indeed set up for a similar sized engine, you should be OK on this. Increasing venturi size will result in slower but greater airflow. This will move the power band UP in RPM and reduce torque down low (for a given jetting). Weber is an Italian company which produces carburetors; it is owned by Magneti Marelli Powertrain S.p.A., which is in turn part of the Fiat Group. Carburetor production in Italy ended in 1992 when Weber shifted carburetor production to Madrid, Spain, where it continues today. The Saab V4 Tech Source is a technical library for owners of Saab 95, 96 and Sonett cars fitted with German Ford V4 engines. Some of the information on this website may be of interest to owners of Ford cars and Ford Cologne industrial V4/ V6 engines as well. La Weber è una storica fabbrica di carburatori, facente parte attualmente del gruppo Magneti Marelli, a sua volta di Fiat Chrysler Automobiles, fondata da Edoardo Weber nel 1923 a Bologna. Facente parte del gruppo Magneti Marelli, dalla fine degli anni ottanta ha mutato il suo nome societario con vari passaggi da Weber s.r.l. in Magneti Marelli s.p.a., mantenendo Weber come marchio commerciale.
