The Honeywell VISTA-20P is an alarm control panel and a member of the Honeywell VISTA Series of security systems. This workhorse of a panel has been around for a very long time, once being under known as the ADEMCO VISTA 20P. The programming for the system lives in the actual control panel, not the keypads so you'll just need to physically replace the devices and then properly address the 6160V to a valid keypad address (which should be detailed in the 6160V installation guide).
