There is little to be said of the MG-3's design or development, as it is essentially just an improved MG-42 re-chambered for 7.62x51 mm NATO round. The MG 3 is a German general-purpose machine gun chambered for the 7.62x51mm NATO cartridge. The weapon's design is derived from the World War II era MG 42 universal machine gun that fired the 7.92x57mm Mauser round.. The MG 3 was standardized in the late 1950s and adopted into service with the newly formed Bundeswehr, where it continues to serve to this day as a squad support weapon and a ...Fs Mg42 Manual In English - posted in MG34 - 42 Message Board: This is an English translation of the original WWII German MG42 manual (dated March 15,1943), made for the MG42 Gunners. The original machinegun manuals are tough to find, expensive, and of course, in German. If you collect books, that's great, but if you just want the information you've been out of luck until now. This page details the development and operational history of the Rheinmetall MG3 (Maschinengewehr Modell 3) General Purpose Machine Gun (GPMG) including technical specifications and pictures. The MG 42 weighed 11.57 kg in the light machine gun role with the bipod, lighter than the MG 34 and easily portable. The bipod, the same one used on the MG 34, could be mounted to the front or the center of the gun ...[www.brpguns.com](http://www.brpguns.com) This is a simple and solid system which minimizes the length of parts that are under stress upon discharge, and also minimizes the strain on the receiver. On MG 3 machine guns, two types of bolts are available, with standard weight (about 650 gram) for fast rate of fire and with heavyweight (about 900 gram) for slow rate of fire. Manual machine guns Union Repeating Gun August 23, 2013 Ian McCollum 20. The Gatling is

commonly seen as the first manual machine gun used by the US military, but it was preceded by several other designs, including the Union Repeating Gun. Also known as the Ager Gun Book review ...Mk 38 Mod 3 Machine Gun System (MGS) Setting the standard for shipboard defense against small, fast, and agile surface threats. The Mk 38 MGS is a low cost, stabilized self-defense weapon system that dramatically improves ships' self-defense capabilities in all weather conditions, day or night. As the successor of the MG3, the MG5 opens a new era of universal belt fed 7.62 mm x 51 machine guns. Compared to others, the gas operated MG5 offers an intelligent and contemporary build standard, with numerous technical and ergonomic innovations. The mounting interface of the MG5 is compatible with MG3 mounts and tripods already in service. Mg3 Tripod Manual In English - posted in MG34 - 42 Message Board: For owners of the great MG3/MG42 tripods that have been imported and adapted to almost everything, now there is an English Translation of the original German instruction manual. This is not for the original WW2 Lafette, but for the recent imports of the Lafette, made by DISA and H&K. The MG-15 was the first standard flexible-mounted aircraft machine gun adopted by the Luftwaffe in the 1930s. Both it and the MG-17 are evolved form a Rheinmetall/Solothurn design which would also become the Austrian and Hungarian M30 infantry light machine guns. Bundeswehr still uses MG3 as a universal machine gun in all possible roles: handheld, with a bipod, mounted on armored vehicles, military navy machine gun (for defense against fast torpedo boats), and in remotely controlled battle stations. However, despite the proven solutions, field units kept sending suggestions for minor improvements. MG42/MG3 receiver repair and alignment tool kit. Perfect for building MG42 receivers. This tool kit was used by the German army. When a MG42 receiver was damaged, or thought to be out of spec, these tools were used to find the problem, align and straighten out the receiver. Shop for MG-42 / MG-1 / MG-3 / YUGO M53 parts and accessories with Numrich Gun Parts, the world's largest supplier of gun parts. MG 42 machine gun in LMG role, right sideview with bipod folded and carrying sling attached. MG 42 machine gun in LMG role, left sideview, with bipod extended. MG 42 machine gun in MMG role, on infantry tripod mount Lafette 42. MG3 machine gun in "light machine gun" role, as made under license in Pakistan. Despite several attempts to replace it, the MG3 remains in service with the Bundeswehr. In 2005 the Bundeswehr selected the 5.56-by-45-millimeter MG4 light machine gun. Operations in Afghanistan highlighted the need for a heavier weapon, and in 2012 the Bundeswehr adopted the 7.62-by-51-millimeter MG5/HK121.
