Functions

Review of the Uniden Homepatrol 2 & 1 Scanner. Uniden's own idea of the perfect police scanner is called the Home Patrol, now in version 2 as Home patrol 2, the Home Patrol is a pre-programmed digital police scanner that comes pack with loads of features that helps you easily receive both digital and analog signals from law enforcement agency, fire, EMS and more. Like all alarm systems, older Napco security systems will require a battery replacement about every 3-5 years. These panels can all use the standard 12-volt, sealed lead-acid (SLA) rechargeable alarm batteries. Frequently Asked Questions . How does CPI Home Security stand up to the competition? If you reside in one of the 4 southeast states serviced by CPI Home Security and are looking for a professionally installed alternative to an ADT, Monitronics or Vivint Home Security and Automation System, CPI is an option. When you purchase monitoring services from Brinks Home Security, the company gives you two installation options: self or professional. The professional option adds to your starting costs but means someone will come install your equipment and explain its functions.
