Star Trek is an American space opera media franchise based on the science fiction television series created by Gene Roddenberry. The first television series, simply called Star Trek and now referred to as "The Original Series", debuted in 1966 and aired for three seasons on NBC. It followed the interstellar adventures of Captain James T. Kirk (William Shatner) and his crew aboard the starship ...Star Trek is a 2009 American space opera film directed by J. J. Abrams and written by Roberto Orci and Alex Kurtzman. It is the eleventh film in the Star Trek film franchise, and is also a reboot that features the main characters of the original Star Trek television series portrayed by a new cast, as the first in the rebooted film series. The film follows James T. Kirk and Spock (Zachary Quinto ...Women are massively under-represented in physics and other STEM (science, technology, engineering, and mathematics) subjects at all levels. A report by the Institute of Physics, using data from 2011, showed that 46% of schools in the UK had no girls continue to study physics after the age of 16, although girls were over twice as likely to study physics at A-level if they went to an all girls ...A more dubious reason is that the author is writing about Bat Durston, that is, they are being lazy by writing a space western. Westerns are set in the wild west, the corresponding location in science fiction is an interstellar colony.
