The Fordson Major tractor was produced in large numbers at Ford's UK Dagenham factory from 1951 until 1964, and was exported across the world, including to the USA (where it was called the Ford 5000 diesel). Produced with petrol, diesel and kerosene-burning engines, the E1A was the subject of continuous development during its life and was a huge success. Fordson New Major E1A Manual 1951-1964 all models By Pat Ware: The Fordson Major tractor was produced in large numbers at Ford's UK Dagenham factory from 1951 until 1964, and was exported across the world, including to the USA (where it was called the Ford 5000 diesel).
