This is why we can have both emotional and physical responses long after a traumatic event. Overcoming Shock explains the physiology of shock and how shock can control our responses to life. It shows how it impacts our lives and how ... With trauma running the mind, you lose control and enter a shock/trauma vortex: thoughts and images of the shock pull you in as if to a black hole. In that moment when your world crumbles, the biggest shock registers. The moment crystallizes and becomes deeply etched in traumatic memory, reappearing in insistent, unpredictable, invasive replays. Diane Zimberoff and David Hartman are the authors of "Overcoming Shock: Healing the Traumatized Mind and Heart." Soul murder, they state, comes from the "deliberate attempt to eradicate the ... Life presents so many things for which to be grateful. However, we'll all endure hardships over the course of our lifetimes. Pain is an inescapable part of the human condition. But becoming a prisoner of that pain isn't necessary. This is the difference between pain and suffering; the latter is a prolonged experience of the initial upset. If you have suffered from a serious trauma in your life that affects your mind and body, these solutions can help you support your brain and body as you heal the past and create a healthier mind-body for greater happiness in the present and the future.
