The field of economics is focused on how the market uses supply and demand to generate a price and influence producer strategy and consumer behavior. Economics (/ ˈk ɒ n ɒ m ɪ k s, i ˈk -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.
