The SRX was all Cadillac, with plush leather interiors and a range of powerful and highly advanced engine options in a reasonably priced SUV. After the 1st service the little wrench indicator on the dash did not reset, how can I do this, or can I do this without the dealer? I cannot find the answer in the owners manual, I can go back to the dealer, but would rather not take the ride over there... Just finished this h thanks for the write up , one thing I noticed was that the manual says on refit , turn the motor over 4 times before refitting the chain tensioner, you and I did the opposite! can't see it making any real difference although I didn't fit the spring, just pushed the plunger in until all was completed.
